DISTRIBUTED BY:

W. H. **BRADY** CO.

727 W. Glendale Ave. EST. 1914 Milwaukee, Wis. 53209

Manufacturers of Quality Pressure-Sensitive Tape Products, Identification and Labeling Systems, Self-Bonding Nameplates, Automatic Machines for Dispensing Labels, Nameplates, Masks and Tape.

BRADY

SELF-STICKING IDENTIFICATION

The Standardized System for Plant-Wide Maintenance and Safety Marking

Brady now brings you — in a group of self-sticking industrial maintenance and safety products — a *standardized*, job-tested system for plant-wide identification. The system is *complete-in-one-package* . . . gives you a marking method for *every* plant requirement. Nothing is left to chance, error or guesswork.

PROMOTE SAFETY — every industrial hazard clearly and concisely marked.

SPEED MAINTENANCE — equipment, lines, check and lubrication points positively marked — tracing time eliminated.

The system is *designed* to meet specific industrial standards.

The system is flexible . . . can be adopted by large plants or small plants, in any industry, in whole or in part. Put to work in your plant, the Brady System will —

PREVENT COSTLY ERRORS — protect expensive equipment, cut non-productive down-time due to improper installation or hook-up.

REDUCE TRAINING TIME — eliminate need for instruction at each individual point of operation.

Accident Prevention Signs	R15-R18	Write-On Labels	R24

MINIMUM Application Time . . . MAXIMUM Marker Performance from These **BRADY** Product Features

Three Job-Tested Dispensing Methods

1. CARD MOUNTED

Brady Pipe Markers, Conduit and Voltage Markers, Accident Prevention Signs, Wire Markers, Lube Labels, Numbers and Letters, Hard Hat Emblems, Write-On Labels and Radiation Hazard Signs are furnished on Brady Blue Streak® Dispenser Cards, ready for instant use. Markers are released from the card in one motion . . . simply zip back the flexible Zip-Strip and the marker is partially peeled from the card *automatically*. The Zip-Strip may be replaced to protect unused markers.

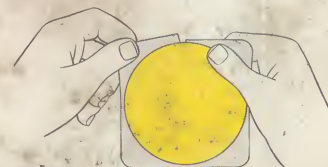

2. ROLL MOUNTED

Self-Sticking Warning Stripes and Color-Code Pipe Banding Tapes are supplied in roll form for convenient dispensing of *varying* lengths of these products. You dispense only the length you need.

3. LINER MOUNTED

Dotted Line Aisle Markers, Die-Cut Numbers and Letters, Perma-Shield Labels, BradyLite Reflective Numbers and Letters, Stick-On Badges and Warning Panels come individually mounted on protective Blue Streak® Liners for quick dispensing as each individual piece is used.

Brady Products comply with industrial and military standards.
See specifications and list of standards inside back cover.

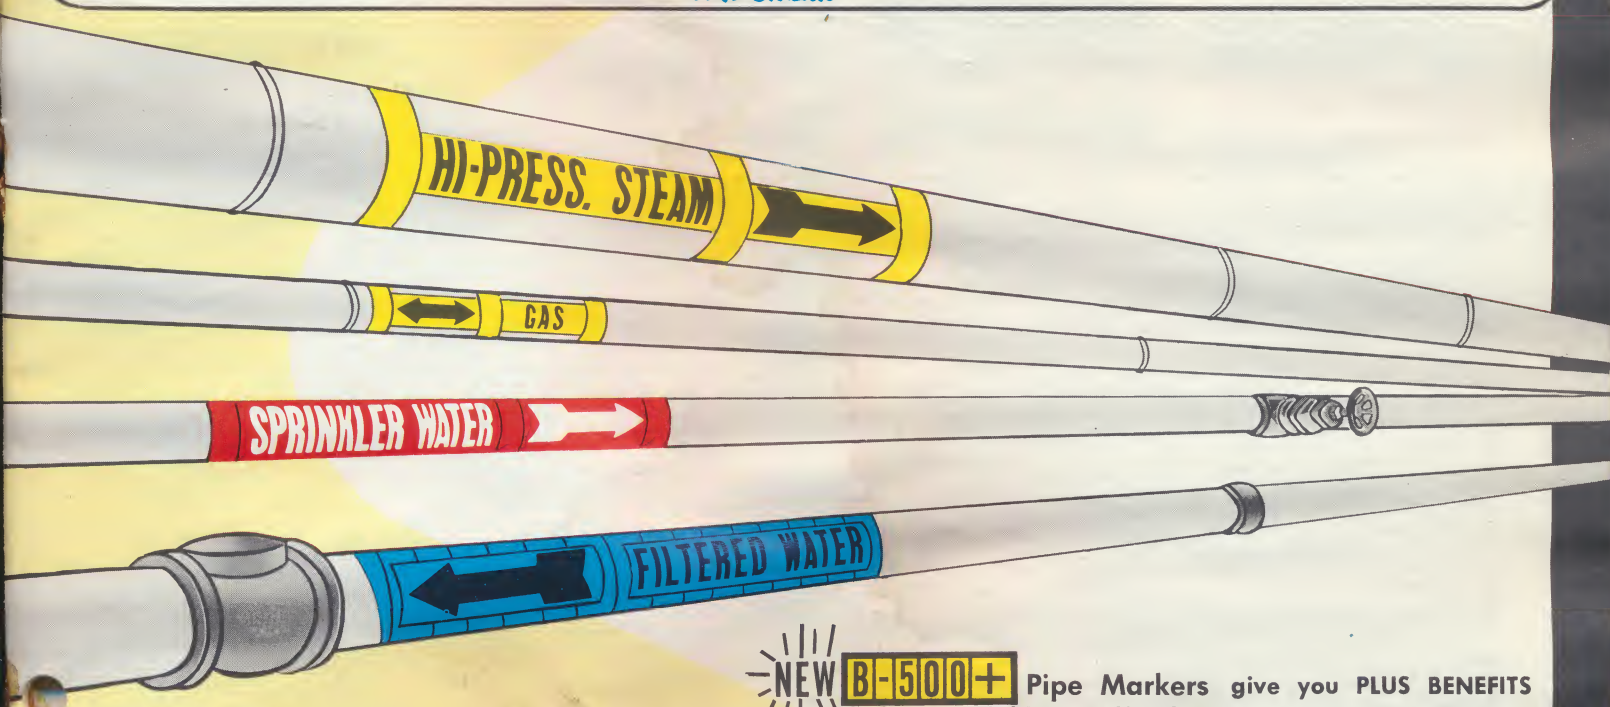

The Standardized Pipe Identification System

BRADY

B-500+
Perma-Code

PIPE MARKERS

MOUNTED ON **BLUE STREAK®** DISPENSER CARDS

NEW B-500+ Pipe Markers give you **PLUS BENEFITS** never before available in self-adhesive pipe line identification. Apply faster to pipe surfaces . . . stick and stay . . . remain sharp and legible.

Standardized Identification at Low Cost

MAKE REPAIRS FAST

Marked pipes speed tracing — reduce down time. Save maintenance man hours—keep production rolling. Don't let vital repairs be delayed by guessing. Brady All-Temperature Pipe Markers are quick to apply—cost less to apply than hand-painted stencils, plastic or metal bands.

REDUCE COSTLY MISTAKES AND GUESSWORK

Even new personnel or extra shift personnel can operate and maintain equipment served by process and supply lines with minimum safety risk and interruption. Operating instructions are clarified. You keep vital equipment running when you standardize with Brady self-sticking Pipe Markers.

SAFETY FIRST

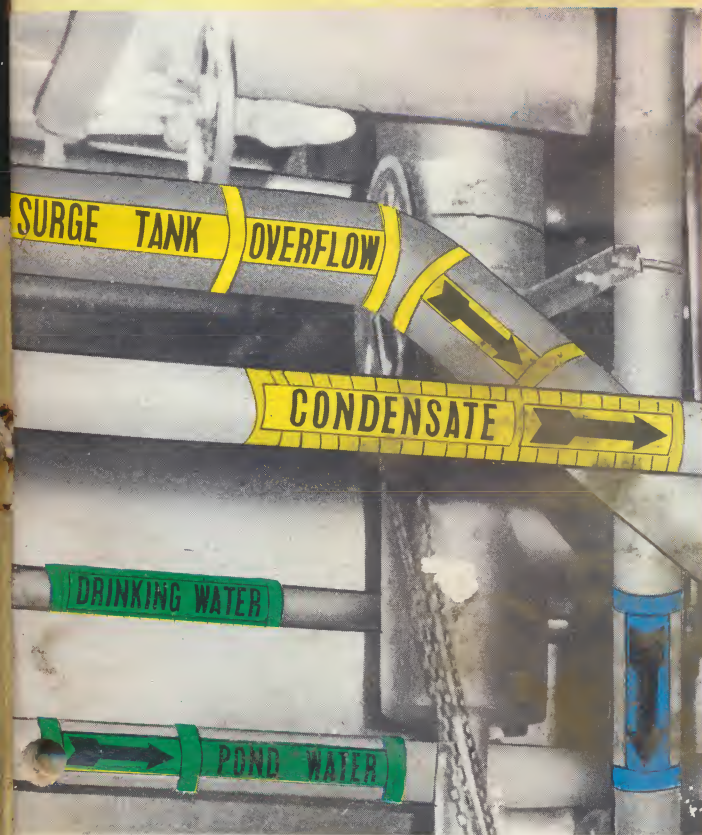

Save valuable time in emergencies. Unmarked lines increase hazards. You eliminate extra hazards to workmen by identifying *all* lines. Show what's in each line, show direction of flow, show shutoff points with Brady All-Temperature Pipe Markers.

NO INTERRUPTIONS

Now you can install Standardized Pipe Identification in your plant at low cost and without interruption to normal plant operation.

JOB TESTED SYSTEM

All personnel *know* the contents of each pipe line. You get benefits of ASA standard background colors on each Marker plus job-tested legends dimensionally balanced for easy reading. You apply color *and* legend in one operation for a *Standardized Pipe Identification System* throughout your plant.

You can mark all pipe sizes — from very small instrument lines to large "headers"—with Brady Standardized All-Temperature Pipe Markers. They stick and stay stuck to pipes as hot as 235° F. (113° C.) constant operating temperature, 300° F. (149° C.) intermittent temperature.

Green — Safe Materials

Background Colors Conform to ASA Standard A-13

The Brady Standardized Pipe Identification System conforms to the American Standards Association Standard A-13 "Scheme for the Identification of Piping Systems." This standard, widely accepted throughout American industry, establishes four basic background colors — yellow, bright blue, red, green.

The names of materials (pipe contents) are super-imposed on these ASA background colors — *you apply color and legend at the same time*. Identification is positive, quick, complete.

Use Brady Pipe Markers styles 1, 2, or 3 on all pipes 3" diameter and larger. Use Brady Pipe Markers styles 4, 6, or 8 on all pipes smaller than 3" diameter.

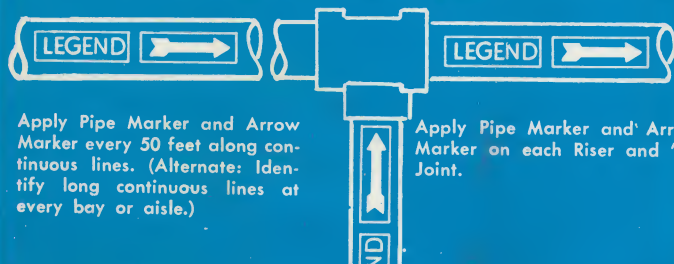

Apply Markers on the 2 lower quarters of the pipe and where view is not obstructed.

Apply Brady Pipe Marker and Arrow Marker at each VALVE to show proper identification of contents and direction of flow.

Where Pipe Line passes through a wall, apply Pipe Marker and Arrow Marker on the pipe on both sides of the wall.

Arrow Markers must point AWAY from Pipe Markers and in direction of flow. If flow can be in BOTH directions, use double headed Brady Arrow Markers.

Apply Pipe Marker and Arrow Marker every 50 feet along continuous lines. (Alternate: Identify long continuous lines at every bay or aisle.)

Apply Pipe Marker and Arrow Marker on each Riser and "T" Joint.

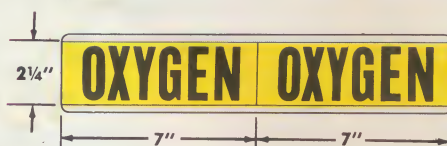

NOTE I — Some materials used for pipe insulation or coverings make it impractical to identify piping systems in the conventional manner.

On chalky and loose insulation, soft, porous, fiber-filled or Fiberglass coverings, a spiral wrap of the Pipe Banding Tape should be made around the circumference of the pipe. Sufficient spiral wraps should be made to accommodate the horizontal dimension of the Pipe Markers.

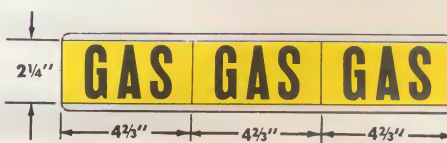

NOTE II — On bare pipes, painted pipes, pipes insulated with a firm covering, Pipe Banding Tape matching the background color of the Marker should be used for 360° color coding. After applying Pipe Marker, wrap Pipe Banding Tape around pipe at each end of Marker. Tape should cover 1/4" to 1/2" of each end of Marker, and should overlap approximately 1/2" to 1" on itself.

Standardized SIZES**Markers for Pipes Over 3" Diameter**
2" High Legend

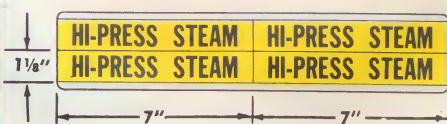

Style 1 — For Long Legends like HI PRESS. STEAM, FIRE PROTECTION WATER, etc. ONE 2 1/4" x 14" Marker per dispenser card.

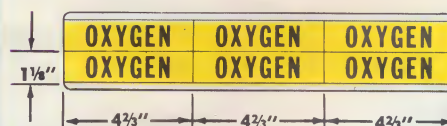

Style 2 — For Medium Legends like OXYGEN, WATER, etc. TWO identical Markers, each 2 1/4" x 7" per card.

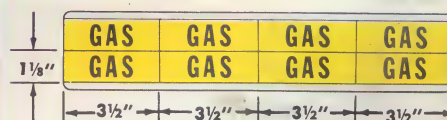

Style 3 — For Short Legends like AIR, GAS, etc. THREE identical Markers, each 2 1/4" x 4 2/3", per card.

Markers for Pipes Under 3" Diameter
3/4" High Legend

Style 4 — For Long Legends (8 to 17 characters). FOUR identical Markers, each 1 1/8" x 7", per dispenser card.

Style 6 — For Medium Legends (5 to 7 characters). SIX Markers, each 1 1/8" x 4 2/3", per card.

Style 8 — For Short Legends (3 and 4 characters). EIGHT Markers, each 1 1/8" x 3 1/2", per card.

Stock List — STYLE 1 and STYLE 4 MARKERS (Long Legends)

For prices see Tables R5 and R6.

Pipe Banding Tapes

When specifications require supplementary identification by color banding, order Brady Self-Sticking Color-Code Pipe Banding Tape. Stocked in same four matching ASA colors as Brady Pipe Markers plus Aluminum for steam lines, Orange for electrical conduit, standard White and Purple.

Pipe Banding Tape comes in standard 30 yard rolls, 2¼", 1½" and ¾" wide.

- ★ Mark Any Size Conduit, Busway, Power Line
- ★ Identify Switches, Fuse Boxes, Transformers, other Electrical Equipment
- ★ Eliminate Tracing Time, Voltage Testing, Guesswork

Brady Self-Sticking Conduit and Voltage Markers provide positive, *standardized* identification for your entire plant electrical system. They tell *voltage* and *purpose* of every electrical line, circuit and unit.

CUT PRODUCTION DOWN TIME

Marked electrical lines and equipment speed repairs, help reduce damage to costly equipment, eliminate production interruptions caused by faulty hookups and installation guesswork.

ECONOMICAL, QUICK TO INSTALL

Low-cost Conduit and Voltage Markers let you identify with BOTH *color* and *legend* in seconds — faster than painting or stencilling. Markers stick instantly and permanently to flat, curved or irregular surfaces.

CONFORM TO INDUSTRY, MILITARY STANDARDS

Markers are furnished with bold black legends on industry and utility accepted Alert-Orange backgrounds. Most NEMA voltages in stock.

For prices see Table No. R7, Brady Price List No. 1016

STANDARDIZE WIRE IDENTIFICATION WITH

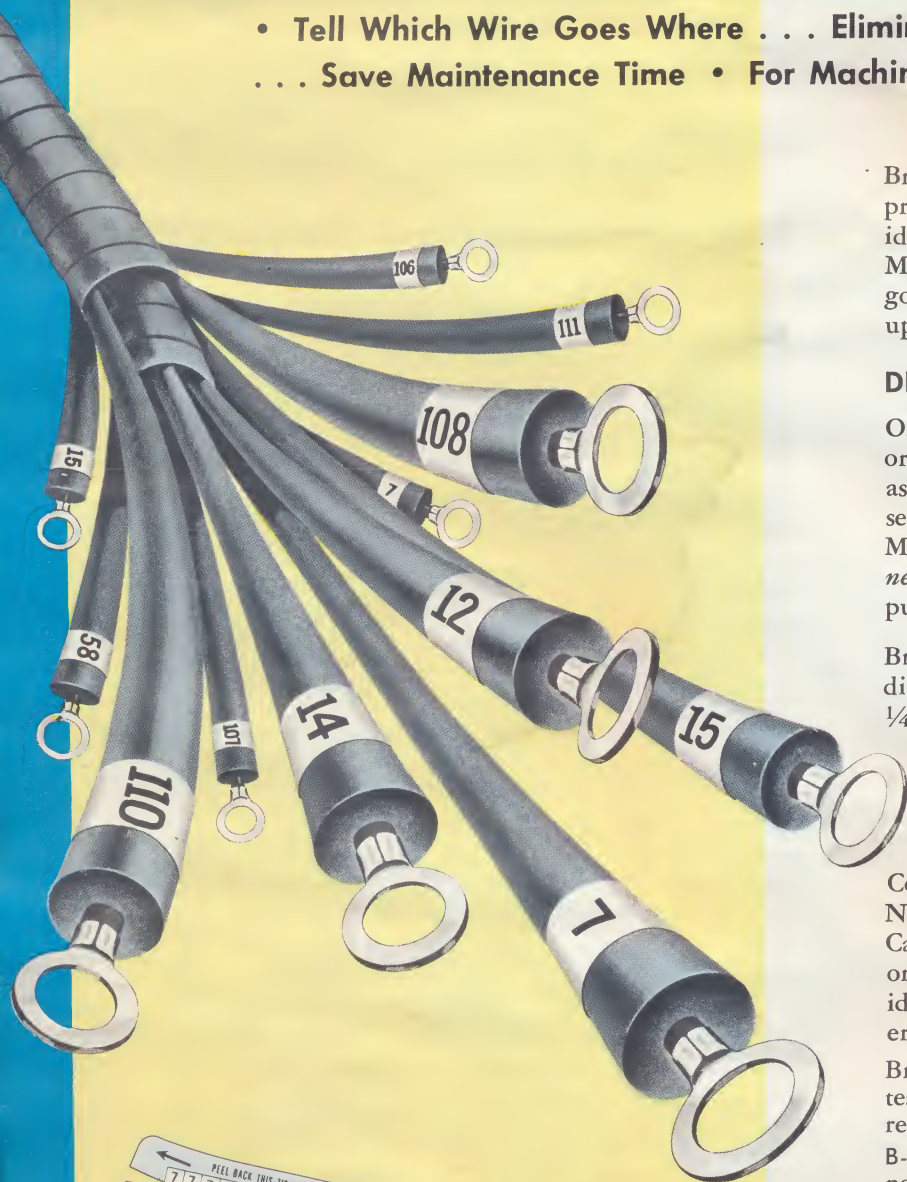

BRADY

Perma-Code

WIRE MARKERS

MOUNTED ON **BLUE STREAK**® DISPENSER CARDS

- Tell Which Wire Goes Where . . . Eliminate Guesswork • Speed Installation
- . . . Save Maintenance Time • For Machine, Equipment, Lighting, Motor Wiring

Brady Self-Sticking Perma-Code Wire Markers provide permanent, *standardized* around-the-wire identification for existing wiring . . . new wiring. Maintenance personnel tell quickly which wire goes where . . . make repairs, installations, hook-ups in less time, at less cost.

DESIGNED FOR MAINTENANCE USE

One or more dispenser cards fit handily in pocket or tool box. Markers are dispensed one at a time as needed. Application time is quick — just a few seconds for each wire. Identification is positive — Marker wraps completely around the wire, *permanently*. Sticks and stays stuck, even when wires are pulled through conduit.

Brady Wire Markers are pre-cut to exact job-tested dimensions. Use 1½" long Markers for wires over ¼" o.d. . . . ¾" long Markers for wires ¼" o.d. and smaller.

MARKERS FOR EVERY NEED

Over 3000 different Markers are stocked, ready for immediate shipment. Choose from:
Consecutive Number Cards . . . Solid (identical) Number Cards . . . Solid or Consecutive Letter Cards . . . Solid or Consecutive Numbers on Colored Backgrounds for two-way (number and color) identification . . . Solid NEMA Color Code Markers. See Stock List on next page.

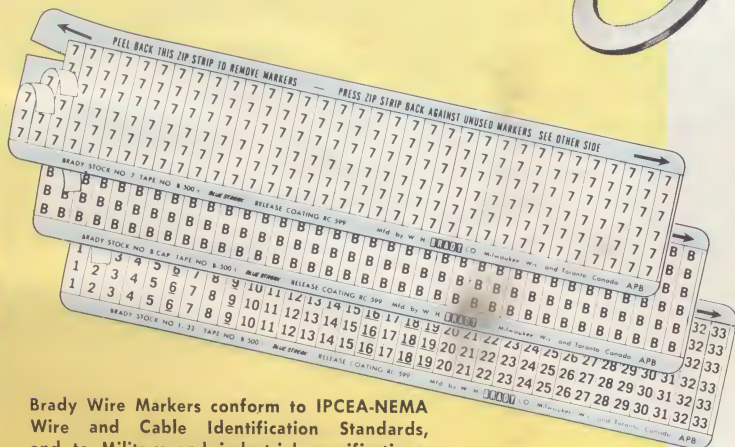

Brady Stock Wire Markers are available in job-tested materials designed to meet every application requirement and environmental condition:

B-500+ PLASTIC CLOTH for general wire marking needs. High tack adhesive (40 oz. psi) grabs tight to wires. Markers won't slip or unwrap. Resists temperatures up to 300° F.

B-400 REINFORCED PLASTIC for wires with teflon, silicone or vinyl insulation, or heavily slip-coated wires. Resists temperatures to 250° F. Dirt, oil and solvent resistant.

B-184 ALUMINUM FOIL for oil or solvent-laden atmospheres. Foil resists 1215° F. temperatures — adhesive resists 300° F.

B-600 PERMA-SHIELD Markers with built-in protection for lasting durability. Legends are sub-surface printed under clear, tough Mylar*. Printing cannot wear off . . . is unaffected by dirt, moisture, acids, solvents. Permanent pressure-sensitive adhesive. One piece construction . . . Mylar shield, printing and adhesive are one inseparable unit.

Brady Wire Markers conform to IPCEA-NEMA Wire and Cable Identification Standards, and to Military and industrial specifications.

SPECIFICATIONS

INDIVIDUAL LABEL SIZE: $\frac{3}{8}$ " or $\frac{1}{2}$ " wide by any length up to 36 ft.

SIZE OF MACHINE: $4\frac{3}{4}$ " wide x $6\frac{1}{4}$ " deep x $4\frac{1}{2}$ " high.

WEIGHT: 2 $\frac{1}{2}$ lbs.

FAST LOADING: Remove back, insert and position tape end and replace. That's all!

NO. OF CHARACTERS ON WHEEL: 45.

RUGGED CONSTRUCTION: High impact plastic case with metal base.

INSPECTION WINDOW: Lets you see the letters you've printed, *immediately*.

MODEL NOS.

QLM-375 for $\frac{3}{8}$ " tape

QLM-500 for $\frac{1}{2}$ " tape

For prices, see tables R8 and R8-A of Price List 1016

Brady presents a totally new concept for producing self-sticking, raised-letter plastic labels, with features *you'd expect* in an industrial unit costing several hundred dollars:

- Fast, fatigue-free operation . . . just dial 'n' print.
- Quik-select, 45 character dial for minimum motion.
- Full view window shows characters as they're printed . . . reduces errors.
- Uses economy size, 36 ft. long jumbo rolls of Quik-Label tape or standard 12 ft. rolls.
- Sturdy construction of high impact plastic . . . metal base.
- Delivers individually cut or multiple pre-cut labels in continuous strip dispenser strips up to 36 ft. long.
- Easily portable . . . or may be bolted to bench or wall.

The cost of the Quik-Label Machine is *less* than most industrial hand-held labelers—*less than \$20.00 complete!*

BRADY QUIK-LABEL EMBOSSING TAPE $\frac{3}{8}$ AND $\frac{1}{2}$ INCHSTOCK AND PRICE LIST
BRADY QUIK-LABEL TAPES

Self-sticking plastic tapes with high gloss, easily cleaned surface. Contrast sharply with white embossed letters for maximum legibility. Colors and embossing are permanent—cannot fade or rub off. Indoor or outdoor application. Pressure-sensitive adhesive bonds on contact. Furnished in $\frac{3}{8}$ " and $\frac{1}{2}$ " widths, 36 ft. long rolls for Nos. QLM-375 and QLM-500 Embossing Machines. Tapes are packaged in easy-load cartridge boxes to fit the machine.

AVAILABLE AS SINGLE ITEMS OR COMPLETE IDENTIFICATION KITS

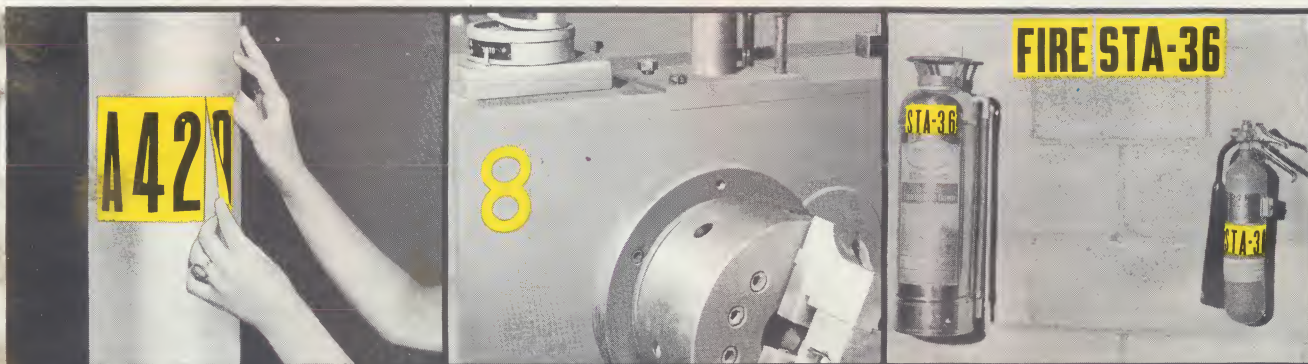

FOR FAST, ECONOMICAL, STANDARDIZED MARKING OF: Bins • Columns • Bays • Areas • Posts • Aisles • Pallets
Tote Boxes • Electrical Centers • Shelves • Drawers • Machines • Motors • Dies • Parts • Assemblies • Cabinets
Files • Record Books • Desks • Furniture and other Plant and Office Fixtures and Equipment

Die-Cut Markers on 3" x 12" black Mounting Panel identify this utility truck.

Interplant Tote Boxes marked with 2 1/4" high Numbers and Letters.

3" Die-Cut Numbers identify slots for pallets.

Big, bright, 5" high Markers identify this column.

Die-Cut Vinyl Number 8 plainly marks this work station.

Two sizes of Brady Card-Mounted Markers designate this fire station and extinguisher.

MAKE SIGNS IN A MINUTE FOR PENNIES with
BRADY ^{T.M.} **QUIK-ALIGN**
SIGN SYSTEM

• PRE-SPACED • SELF-ALIGNING • HANDY KITS

An Instant, Do-It-Yourself System for use in the **FACTORY • OFFICE**
WAREHOUSE • SCHOOL • STORE • HOSPITAL • HOTEL or MOTEL • PUBLIC
or PRIVATE BUILDING • CONSTRUCTION PROJECT • TRUCK or CAR • THEATER
PUBLIC UTILITY — ANYWHERE SIGNS OR IDENTIFICATION ARE NEEDED

INTERLOCKING NOTCHES GUARANTEE PROFESSIONAL RESULTS—Each letter or number is mounted on a notched card. Line up the notches . . . peel off the letter . . . press in place—THAT'S ALL!

SELF-ADHESIVE—Apply letters to signboard or directly on doors, windows, walls, vehicles, shelves—wherever you need instant identification, instructions or warnings. Letters stick tight *permanently* without glue, moistening or tools . . . without fancy composing sticks or transfer strips.

SIGNS IN MINUTES — PROFESSIONAL QUALITY—Get the signs you need NOW, in less time than it takes to call in and instruct a sign painter. (You can create a ten-letter sign in about a minute!) Self-adhesive numbers and letters stick to any surface you can paint . . . many surfaces you *can't* paint. No artistic experience needed. Letters are pre-spaced and self-aligning . . . clean and sharp . . . professional and permanent!

COSTS PENNIES . . . MAKES SENSE! The Brady Quik-Align System costs less than any other do-it-yourself sign system—*far less* than a sign painter. Results are neat, snappy, colorful. It's the most logical answer to your sign requirements, whether your need for signs is regular or occasional.

TOUGH SELF-STICKING VINYL—Think of a material so tough, it's used on factory floors, driven over with heavy industrial trucks. That's Brady Quik-Align vinyl. It's resistant to water, fading, grease, and all sorts of

weather, except perhaps a direct hit by lightning. The heavy-duty adhesive grabs tight on contact . . . holds on for dear life for as long as you want your message to be read.

VERSATILE—You can make up the signs you need fast on signboard, plywood, composition board or metal. Even better, you can stick the letters and numbers *directly* to a great variety of surfaces: Wooden doors; glass windows; truck bodies; drywall, plastered walls or marble walls; cabinets or shelving; exhibits and displays; concrete or tile floors; store fronts . . . you name it—if it can be painted, you can mark it with Quik-Align Letters and Numbers!

MIX 'EM OR MATCH 'EM—Different sizes of letters can be used in a single line to add emphasis *just as quickly and easily* as using a single size! The alignment notches match perfectly. All sizes are used interchangeably. Same goes for colors.

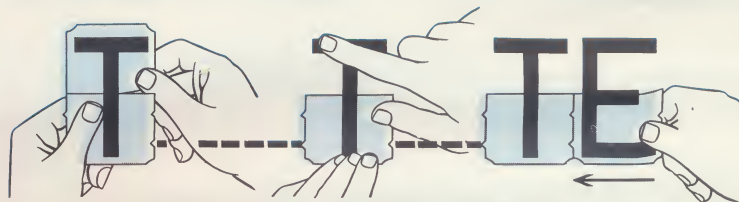

QUIK-SIGN PANELS, TOO—You can make your own *self-sticking* signs using Brady Panels with your Quik-Align Numbers and Letters. They're made of the same rugged, vinyl plastic as the letters . . . let you add sharp contrasting backgrounds to your markings and messages. Assorted sizes and colors. Make 'em up before you stick 'em up!

CONFORM TO FEDERAL SPECIFICATIONS—The style (type face) and sizes of Brady Quik-Align Numbers and Letters conform to the standard alphabet and numerals specified by the Bureau of Public Roads, U. S. Department of Commerce.

Quick, Easy to Apply — MAKE A 10-LETTER SIGN IN 60 SECONDS!

1. Select letters for sign. Lay out letters on table or bench just the way they will appear on sign.
2. Be sure mounting surface is clean and dry. Peel off top half of QUIK-ALIGN card. Press top of adhesive-backed character into position. A lightly drawn horizontal line $\frac{1}{8}$ " below legend will help square the first character. Be sure the bottom QUIK-ALIGN point and opposing notch are on the line.
3. For succeeding characters, remove top half of card, slide into position so notches and points interlock. Press down top of characters to adhere.
4. When top portion is mounted, peel off bottom of self-aligning cards. Press all characters down firmly.

BRADY[®] QUIK-ALIGN[™] SIGN KITS

A Brady QUIK-ALIGN Sign Kit is your own portable sign shop. Letters and numbers are packed in a compact case, ready for use. Individual slots for alphabetical and numerical characters make for easy selection as you compose your signs. Kits include free spacers, full easy-to-follow instructions. There are 533 individual characters in every kit—quantities of each character are in proportion to use. (You get more "e's" than you do "z's.")

For prices see Price List 1016, Table R11

Add greater visibility and impact to your custom signs and identification. Use these All-Vinyl or Reflective Bradylite Background Panels with 2" Die-Cut Numbers and Letters to make up neat, legible, permanent markings.

Stocked in three sizes, in Yellow Reflective Bradylite, and white or yellow vinyl (for use with black letters), or black vinyl (for use with yellow or white letters). Mounted on zip-off Blue Streak® Liners.

Standardize Identification of Emergency and Vital Plant Equipment with

BRADYLITE 200TB* REFLECTIVE NUMBERS and LETTERS

*Reflects 200 times brighter than a white painted surface.

Mark Emergency Equipment and Areas for 24-Hour Identification:

POWER SWITCHES • TRANSFORMERS
EXITS • AREAS • FIRE EXTINGUISHERS
FIRE ESCAPES • FIRE DOORS • EMERGENCY VALVES AND PIPING • AISLES
FIRE FIGHTING EQUIPMENT • FIRST AID SUPPLIES

Protect your plant by having all emergency and vital equipment instantly identifiable day or night! Be sure emergency rescue and repair crews can immediately locate and identify fire fighting equipment, power switches, potentially dangerous equipment, plant areas, etc.

Reflective BradyLite Numbers and Letters give positive identification when illuminated by *any* light source — flashlight, plant night-lights, headlights, spotlights and sunlight. Self-sticking BradyLite markers are guaranteed to stick and stay stuck to any smooth, clean, dry surface — and *remain legible for the life of your equipment.*

BradyLite Numbers and Letters come individually mounted on liners which protect the adhesive until removed. No tools, fasteners, solvents — quick and easy to apply. Packaged 25 identical markers in handy plastic box.

For full details write for Brady Bulletin No. 537.

For prices see Table Nos. R14A, R14B and R14C, Brady Price List No. 1016.

Standardize your plant safety and housekeeping program with

Self-Sticking
Point-of-Hazard

ACCIDENT PREVENTION SIGNS

MOUNTED ON BRADY BLUESTREAK® DISPENSER CARDS AND LINERS

- Flexible, Low Cost Industrial Safety Marking System
- Self-Sticking Signs Pinpoint Safety Warnings at Point-of-Hazard
- Help Reduce Accidents — Promote Safety and Good Housekeeping

Anyone can apply in seconds without tools, activators, fasteners or solvents. Brady Accident Prevention Signs are self-sticking. Stick to metal, glass, plastic, wood, plaster, ceramic, unpainted or painted surfaces.

Different signs can be used alone, or combined, to cover any safety or plant good housekeeping situation . . . give you over 2,000 different combinations. The signs are inexpensive to buy . . . quick and easy to apply. Tough, long-wearing Brady No. B-500+ self-sticking plastic cloth sign material guarantees lasting application . . . permanent warning of hazards.

Basic Purpose, Specific Purpose Signs

Basic Purpose Signs (like "DANGER," "CAUTION") give general warning of a hazardous condition or give general safety instructions. *Specific Purpose Signs* (like "NO SMOKING," "WEAR EYE PROTECTION") identify the hazard specifically, give specific precautionary instructions.

Brady Accident Prevention Signs conform to American Standards Assn. and National Safety Council Specifications for design, color, wordings and size. (ASA Standard Z35.1-1941.)

How to use Brady Accident Prevention Signs

1. Combine a Basic Purpose Sign "DANGER" and a Specific Purpose Sign "NO SMOKING" to make up "DANGER — NO SMOKING."
2. Combine a Basic Purpose Sign "DANGER" and more than one Specific Purpose Sign "EXPLOSIVES," "NO SMOKING."
3. Use practically any Basic Purpose Sign or Specific Purpose Sign by itself to warn, point, instruct or inform.

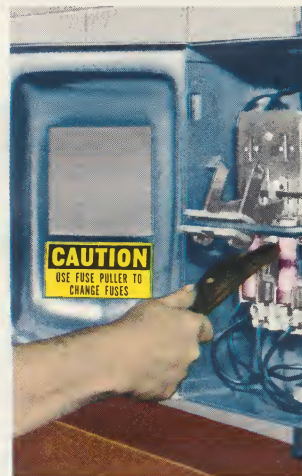

Three self-sticking Brady Accident Prevention Signs are applied right at point-of-hazard. Basic Purpose "DANGER" Sign gives general

warning of hazardous condition. The two Specific Purpose Signs below it give specific precautionary instructions to operators.

Self-sticking 2 1/4" x 4 1/2" "DANGER-HIGH VOLTAGE" Sign is applied and conforms to outside of this switchbox. Inside of door is marked with sign: "CAUTION — USE FUSE PULLER TO CHANGE

FUSES." Signs are non-conductive; can be applied right on electrical equipment at point-of-hazard without drilling holes, using fasteners, paint or tools.

SPECIAL MADE-TO-ORDER SIGNS

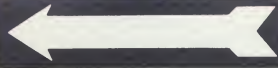

SPECIAL ACCIDENT PREVENTION SIGNS — Brady can furnish Accident Prevention Signs with Special Wordings, Slogans, Colors, Emblems and in other-than-Stock sizes and shapes. Send a brief description or sketch of the special sign, with the quantity you require. We will send quotation promptly.

UNSUPPORTED VINYL SIGNS — Special, made-to-order signs printed on tough, all-vinyl material. Vyclad® overcoating protects printing against abrasion, oil, dirt and moisture. Write for information and samples.

BASIC PURPOSE SIGNS

STOCK NO.	SIGN	DESCRIPTION	SIZE
CAU-1-1 CAU-2-1 CAU-3-1		<i>Purpose:</i> "To Warn of Possible Dangers" (Sec. 4.1b of Z35.1). <i>Use With:</i> Any "CAU" Specific Purpose Sign or signs of corresponding size.	2 1/4" x 9" 3 1/2" x 10" 5" x 14"
DAN-1-1 DAN-2-1 DAN-3-1		<i>Purpose:</i> "To Warn of Specific Existent Dangers Only" (Sec. 4.1a of Std. Z35.1). <i>Use With:</i> Any "DAN" Specific Purpose Sign or signs of corresponding size.	2 1/4" x 9" 3 1/2" x 10" 5" x 14"
DIR-4-1		<i>Purpose:</i> "To Indicate the Way to Stairways, Fire Escapes, Exits and other Locations" (Sec. 4.1d of Z35.1). <i>Use With:</i> Any "DIR" Specific Purpose Sign or signs.	3 1/2" x 14"
NOT-1-1 NOT-2-1 NOT-3-1		<i>Purpose:</i> "To Carry Messages of a General Nature, such as Rule Regulations and Markers" (Sec. 4.1 of Z35.1). <i>Use With:</i> Any "NOT" Specific Purpose Sign or Signs of corresponding size.	2 1/4" x 9" 3 1/2" x 10" 5" x 14"
RAD-1-C RAD-1-E RAD-1-G		<i>Purpose:</i> "To Warn of Hazards Due to Radioactive Materials." (Symbol design and colors conform to Atomic Energy Commission specifications.) <i>Use With:</i> Any "RAD" Specific Purpose Sign or signs of corresponding size.	2 1/4" x 9" 3 1/2" x 10" 5" x 14"
SF-1-1 SF-2-1 SF-3-1		<i>Purpose:</i> "To Provide Information Relating to General Safe Practices" (Sec. 4.1C of Z35.1). <i>Use With:</i> Any Specific Purpose Sign or Signs of corresponding size, or by themselves.	2 1/4" x 9" 3 1/2" x 10" 5" x 14"

SPECIFIC PURPOSE SIGNS

Brady Specific Purpose Signs are listed on the following pages in alphabetical order.

Like Basic Purpose Signs, most Specific Purpose Signs are available in three different sizes: 2 1/4" x 9", 3 1/2" x

10" and 5" x 14". EXCEPTIONS are Direction (DIR) signs which are 3 1/2" x 14", some "Radiation Hazard" signs and signs meant for installation directly on equipment where available space is limited (size 2 1/4" x 4 1/2" and 5" x 9"). Refer to stock list for size information.

BRADY PERMA-SHIELD LABELS

Brady Perma-Shield Labels give you custom-made labels, permanently protected against smudging, scuffing, weather, oil and chemicals by a clear, pressure-sensitive Mylar cover. Easy-to-use Perma-Shield Labels come in continuous perforated form ready to slip into a typewriter. Individual labels are easily separated for fast permanent application. These low-cost Mylar-shielded labels can be typed, printed or written on with pencil, pen or ballpoint. Prepare the labels as you need them. Give immediate, clear-as-glass, legible marking to practically anything, anywhere. Select from the full range of stock colored borders for color-code identification.

ORDERING INFORMATION: Minimum order is one full package of any one item. Not sold in broken packages. Different sizes may be combined for quantity price.

SPECIFY BORDER COLOR WHEN ORDERING: Blue, Black, Green, Orange, Red, No Border.

**Available only on special order and without border. Minimum order: 1,000 labels. Write for quotation.

HOW TO APPLY PERMA-SHIELD LABELS

(Mylar is Du Pont's registered trademark)

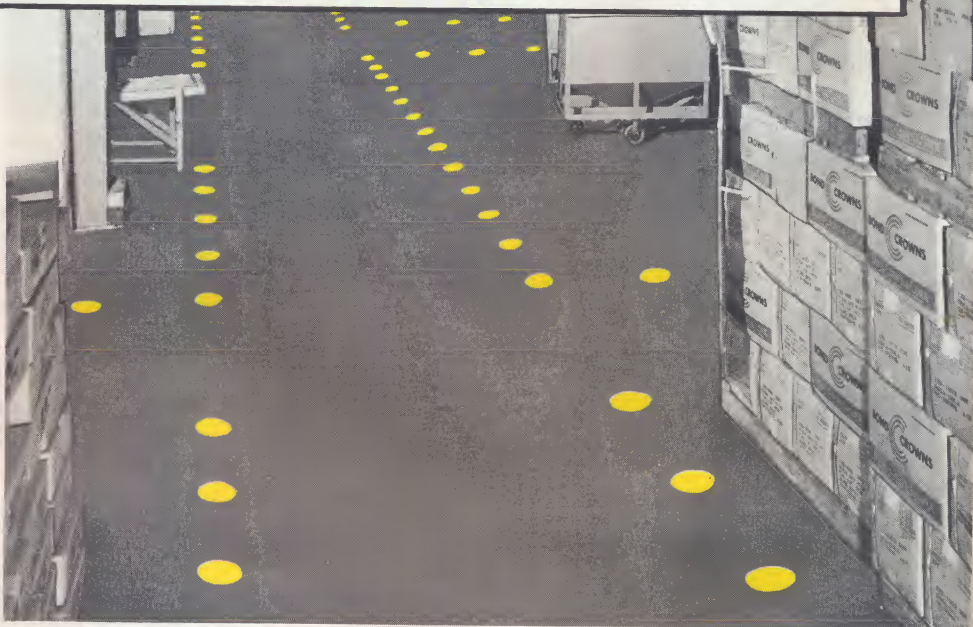

STANDARDIZE TRAFFIC LANE MARKING WITH

BRADY All-Vinyl AISLE MARKERS

★ Identify Aisles, Bays, Plant Areas — Speed Traffic Flow

★ Save Maintenance Time and Labor

★ Outwear Painted Lines 5 to 1

Brady all-vinyl Dotted Line Aisle Markers are the quick, easy, economical way to mark plant traffic lanes and areas. They stick to any clean, dry surface without moistening. No messy adhesives or chemical activators are needed to apply.

Brady Aisle Markers can be installed in a fraction of the time it takes to paint lines . . . withstand severest wear of truck or pedestrian traffic. The Markers resist oil, grease, acids, solvents, moisture. They outlast painted lines 5 to 1.

Use dotted line Aisle Markers (circles) to identify aisles and outline plant bays and areas. Use Directional Arrows to show the way to fire protection equipment, first aid room or nearest exit.

The Aisle Markers are made from Brady No. B-930A self-sticking vinyl plastic. Available from stock in full 2, 3, 4 and 5-inch diameter circles. Standard colors are Caution Yellow, Fire Red, Safety Green and Neutral White for the 2" and 3" sizes . . . Yellow only for the 4" and 5" sizes. Directional Arrows stocked in matching sizes, yellow only.

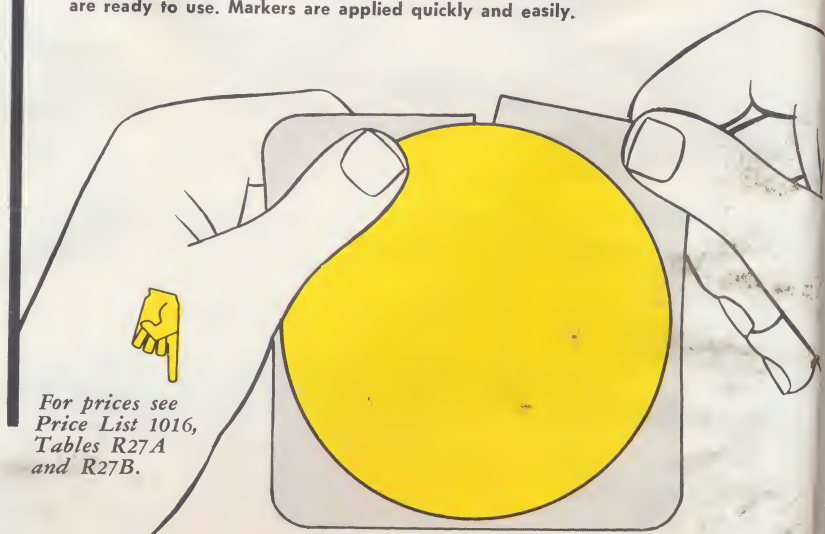

SPECIAL BRADY AISLE MARKERS

Prices for special Brady Aisle Markers, in other-than-stock sizes, colors or shapes will be furnished on request. Please send a sketch or brief description of the special Aisle Markers you require.

Brady Dotted Line Aisle Markers are packed 500 identical pieces to a standard package . . . Directional Arrows are packed 100 to a standard package. Standard packages will not be broken.

NEW!!! ZIP-OFF LINER

Brady Dotted Line Aisle Markers are furnished on individual Blue Streak® Zip-Off Liners. Liners are split (cut down the middle) for fast removal without pull or distortion . . . protect heavy duty adhesive until Markers are ready to use. Markers are applied quickly and easily.

For prices see
Price List 1016,
Tables R27A
and R27B.

MARK AISLES AUTOMATICALLY WITH

BRADY

A I S L E

MARKERMATIC

- Applies Markers to Aisles up to 40 per Minute
- Accurate Spacing: 10", 15" or 20" Apart
- Easy to Load and Operate

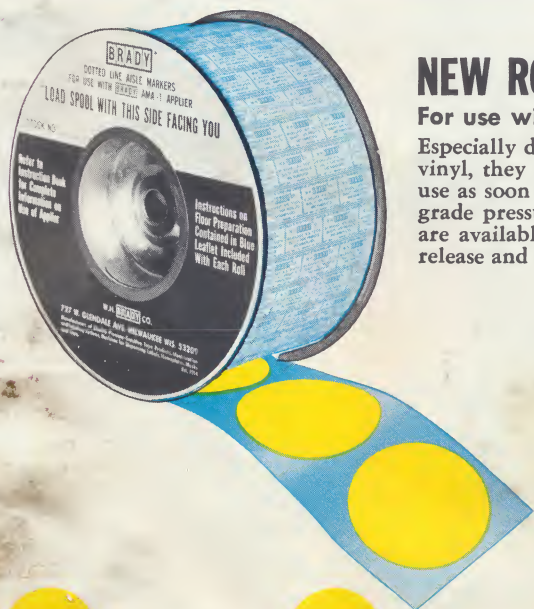

Now apply Brady Self-Sticking Aisle Markers with Brady AMA-1 Applier. Identify large aisles, bays and other key plant areas in seconds.

Lightweight AMA-1 is designed for fast loading and easy one-hand operation. As it is pushed along floor, it removes 2", 3" or 4" Brady Self-Sticking Aisle Markers from liner and applies them to any clean, dry floor surface. Up to 40 markers can be applied per minute. The markers can be placed 10", 15" or 20" apart automatically, or they can be applied random-spaced by merely squeezing applicator handle. The backing is rewound automatically.

SPECIFICATIONS

WEIGHT: 47 lbs.
COLOR: Safety Yellow.

Brady AMA-1 is also available on a convenient rental basis from your local distributor of Brady Aisle Markers.

NEW ROLL-MOUNTED AISLE MARKERS

For use with Brady AMA-1 Applier

Especially designed for quick, easy loading on Brady AMA-1 Applier. Made of tough, durable vinyl, they are supplied 1,000 markers per roll . . . outlast paint 5 to 1. Areas are ready to use as soon as marker is applied . . . no waiting for paint drying. Their heavy-duty industrial grade pressure-sensitive adhesive sticks and stays stuck to any clean, dry floor surface. They are available in 2", 3" and 4" diameters, and supplied mounted on rolls for quick, positive release and optimum adhesive protection.

STOCK LIST

SIZE	STOCK NO.	COLOR	NUMBER PER ROLL
2" dia.	AMR-2Y	Yellow	1,000
3" dia.	AMR-3Y	Yellow	1,000
4" dia.	AMR-4Y	Yellow	1,000

For prices see Price List 1016, Table R27-A

STANDARDIZE HAZARD MARKING WITH

BRADY All-Vinyl WARNING STRIPES

★ Bright, Two-Color Stripes Unmistakably Mark Hazardous Areas

Low overhead on this doorway is quickly, economically identified with Brady 2" wide All-Vinyl Warning Stripes.

Mark danger areas and hazardous equipment the fast, low cost Brady Way with all-vinyl, self-sticking, 2-color Warning Stripes. Bright, highly visible danger signals apply quickly and permanently to any clean, dry surface; outlast painted stripes 7 to 1. Color is sealed in . . . cannot fade, chip, wear off.

NO PAINTING "DOWN TIME"

There's no need to shut down machines or equipment, or close off areas until paint dries, when you use Brady Warning Stripes. They take just seconds to apply — no mess . . . no clean-up time.

WHERE TO USE WARNING STRIPES

Posts, Columns, Low Beams, Hand Rails, Protruding Equipment, Travelling Cranes, Doorways, Fire Doors, Elevator Doors, Loading Docks, Conveyors and other hazardous equipment and areas.

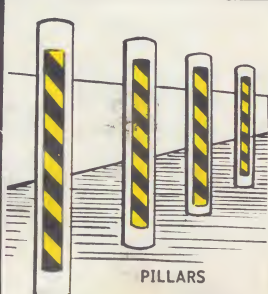

Brady Warning Stripes conform to ASA Standard Z53.1, Safety Color Code for Marking Physical Hazards.

Contrasting caution yellow and black stripes are stocked in 1", 1½", 2" and 3" wide rolls, 18 lineal yards to the roll. You cut length you need from roll, no waste. Other colors, widths and lengths available on special order.

SPECIAL, MADE-

MINIMUM ORDER: \$25 minimum on any one special order. An order for special card-mounted products may combine two or more non-identical items in meeting the \$25 requirement provided each item specified also meets the minimum lot requirement.

(The item lot price varies depending on size and material, but always covers up to 49 identical cards at a specific lot price. See separate price table.)

Cost of special plates, dies, artwork, type composition or other setup charges is **not included** in the \$25 minimum order charge.

TERMS: All products in this price list: 2% 10 days, net 30 days, F.O.B. Milwaukee, Wis., or Goleta, Calif., factory.

When ordering through a distributor, his terms and F.O.B. point apply. Prices subject to change without notice. All orders subject to acceptance by the factory.

ASSORTMENTS AND QUANTITY PRICES: Various items of Special Card-Mounted products may be grouped for quantity prices provided all items are identical in card size, material, tape width and color, and provided at least 250 cards of each item are ordered. Special Card-Mounted Products may **not** be assorted with stock products for quantity price.

TO-ORDER PRODUCTS

SPECIAL ACCIDENT PREVENTION SIGNS, CONDUIT AND VOLTAGE MARKERS, HARD HAT EMBLEMS, NUMBERS AND LETTERS, PIPE MARKERS: These Special card-mounted products made from Brady B-500 tape may be grouped for quantity price provided items grouped are from the same price table and provided each item is of similar construction (tape, card size) and 100 or more identical cards of each item are ordered. Each Special card-mounted item in less than 100 identical Special Cards takes the Special card price for that quantity.

ADDED CHARGES: ARTWORK, PLATES AND DIES: If required for Special Labels, Markers, Masks and other special items

made-to-order, are billed at cost. Plates and dies are kept and maintained by us for use on re-orders and replaced when worn at no cost to you. Normal type composition covered in cost of cards.

LEGEND COLORS: Prices are for black copy or wording on any standard background colors. Add \$5.00 for other than black wording on these standard background colors.

EXTRA COLORS: If the wording or copy on your markers or labels must be in more than one color, write for prices.

SHIPPING TIME: Approximately two to three weeks after order is received on all special items.

SHIPPING WEIGHTS: See chart on page 1 of this price list.
